Operation instructions:
Play via Computer / Mobile phone in Bluetooth mode:
–Long-press the power button (4.) to power on the speaker
–Activate the Bluetooth function on your smartphone or computer
–Search the speaker's name "Tellur Nyx"
–Select the speaker's name and pair the devices
–Connect and Play
–Control your music with the keys at the bottom of the speaker, as described under Product overview.

Play via TF card:
–Insert the microSD card with the contact surface downwards into the microSD card slot (7.)
–Playback will start automatically
–Control your music with the keys at the bottom of the speaker, as described under Product overview.

Play via Aux:
–Insert the AUX cable (not included) into the AUX port (8.) and connect it to your mobile phone/tablet/computer.
–Control your music with your mobile phone/tablet/computer.
Note:
- Bluetooth is a bidirectional transmitting protocol; transmitting distance is highly related to the audio player.
- When the speaker cannot be connected, please delete the existing Bluetooth devices names from the list of your computer / mobile phone. Then, follow the steps described in "Operation instructions".

Disposal and recycling information
The crossed-out wheeled-bin symbol on your product, battery, literature or packaging reminds you that all electronic products and batteries must be taken to separate waste collection points at the end of their working lives; they must not be disposed of in

the normal waste stream with household garbage. It is the responsibility of the user to dispose of the equipment using a designated collection point or service for separate recycling of waste electrical and electronic equipment (WEEE) and batteries according to local laws.
Proper collection and recycling of your equipment helps ensure EEE waste is recycled in a manner that conserves valuable materials and protects human health and the environment, improper handling, accidental breakage, damage, and/or improper recycling at the end of its life may be harmful for health and environment.
