Product description	Give a retro vibe to your home with the WiFi Smart Filament Bulb. Combining modern day technology with a classic look, this bulb is easy to install and use with Tellur Smart app. You can schedule the lights in your home to power on and off, set their intensity or warmth and control them remotely from everywhere through your smartphone. Create smart scenarios to link the smart bulb with other smart products and make them all respond to the same trigger command. An automation scenario will help your smart bulb to trigger other smart products. Also, you can vocally control the bulb via Amazon Alexa and Google Assistant. No master HUB or subscription required. The amber colored bulb offers a warm glow and a more industrial and vintage look.
